

## PORTLAND MARKETS

## Latest Quotations in the Portland Markets

Complete Market Reports Corrected Each Day Giving the Wholesale Prices of Commodities, Farm Produce and Vegetables.

PORTLAND, June 27.—While no advance in price of cheese is announced today, there is every indication that prices will remain firm at quotations, with probably a stiffening in the near future. Under date of yesterday the wholesale trade was advised through the regular circular letter as follows:

"The cheese market is much firmer. A great quantity is now going into the northern territory and also into cold storage, and it is reported that they are offering as high as 12 cents in this market for cold-storage purposes and northern shipments. Based on present conditions of the market, prices are considered low."

An advance of 3c per pound is announced in Gherrardelli's cocoa and chocolate.

Pillsbury flour has advanced 20c per barrel to \$6.40. No change in Coast brands is noted and the Eastern advance will have no effect on local prices for the reason that conditions in the East are peculiar to themselves, just as Coast conditions are peculiar to this market.

There is an exceedingly heavy trade in sugar Portland jobbers handling much greater quantities than ever before. The Eastern market is very strong and Coast refined, steady to firm. There is a difference of 30c between Coast and New York quotations today, the advance Tuesday putting the Eastern figures ahead.

## Eggs and Butter.

There continues to be a very good market for all concerned. In the egg market, prices being firm at 22c, which is considered reasonable to buyer and satisfactory to seller. In some quarters a half cent is named on top of the generally accepted figure. Ranch eggs are not coming in sufficiently to meet requirements, but the light receipts are being augmented by the Eastern goods, that sell side by side with the local eggs. No Portland storage eggs are being withdrawn, as far as could be learned.

Butter is firmer, though there are still very heavy receipts from usual sources of supply, and some from quarters new to this trade previous to this year.
